**RE: Notice of Termination of the Weatherscan Service**

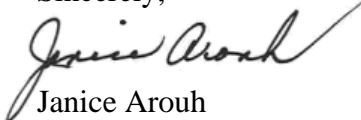

Dear Mr. Borelli:

I am writing in reference to the NCTC Affiliation Agreement dated March 1, 2015, as amended, (the "Agreement") between Weather Group Television, LLC ("Network"), and National Cable Television Cooperative, Inc. ("NCTC"). While Network will continue to provide industry-leading localized weather, including current and future weather conditions, severe weather alerts, and the ability to cover primary and multiple secondary locations, Network has decided to permanently discontinue the operation and delivery of the Weatherscan Service to all distributors contemporaneously. As a result, Network is terminating the Agreement with respect to the Weatherscan Service only.

Please accept this letter as the required notice of termination under Section 11.3 of the Agreement with respect to the Weatherscan Service only. We would like to work directly with you to discontinue carriage of Weatherscan at a sooner date, but in no event will transmission of the Weatherscan Service continue after December 9, 2022. All other terms and obligations of the Agreement with regards to The Weather Channel Service shall remain in full effect.

We're actively developing the next generation of localization within The Weather Channel product, including enhanced graphics and maps, additional weather information, and increased granularity in our ability to localize. If you have any questions, please contact Mike Nemetz by phone at (404) 272-6376 or by email at [mike.nemetz@weathergroup.com](mailto:mike.nemetz@weathergroup.com).

Sincerely,

Janice Arouh  
President, Network Distribution and Marketing
